PLUS AD DESIGN

“We Love Making You Look Good”

Your first impression on a potential customer is done with your ad or circular. It's one of the most important phases of your ad campaign. YOU MUST make that first impression as good as you possible can. You've seen old, washed out, poorly designed ads published in publications all the time. That is a shame... and what a waste of money for the advertiser. The publishers are not at fault. They require 'camera-ready' ads. The small fee involved in having your ad professionally designed and typeset is probably one of your least expenses... AND SO IMPORTANT!

Don't be mailing no ugly ads...

WE CAN MAKE YOU LOOK GOOD!

You can have us transform your ad wording into a professional, eye-catching display ad. Full borders, up to 45 words per inch, reverse headline and of course we can add a graphic if appropriate. We send you a stack of crisp laser printed originals of your fresh, new ads.

Circular/Ad Address Strips

Let us typeset your name and address into five different size peel-n-stick strips to use for those circulars and ads you get where you need to add your name and address. Trying to do it by hand only makes for a ragged looking and unprofessional circular or ad.

Increase your chances for more sales by using these easy-to-use professional looking name and address strips.

Following are actual size samples you will receive as your personalized strips.
